## Customer Reviews

This is a bunch of excerpts from some of Black Lace's full length books. I felt the scenes suffered from standing alone, and would have had more emotional impact if they were read as intended (in a book). If you are only purchasing for "one-handed reading" you may be especially disappointed, because the heat seems to be lacking across the board. These are definitely sex-scenes, but not especially over-the-top-sexy (for me). If you are interested in trying to find your next Black Lace novel, this anthology might help direct you towards a writing style and subject that appeals to you. In general, I find Black Lace full length novels much more satisfying than these excerpt anthologies.

I had never read this author before. I don't mind sex in my books but. I want love along with it. It should already be there or you know it will happen. I do not like the domination of women the first two stories the women were virgins I saw nothing but lust between the two people. The first book she was to call her husband master. The last story I liked they were old friends he had loved her even when she married another. She was now a widow and he had his second chance. I felt that they really loved one another and the only couple that would stay in love. I think that if you like stories where women are going to be ruled by men these are the stories for you. We all can't like the same thing. One of the reviewers said this was part of a book. I thought they were just short stories. I don't plan on reading the author again she writes well but not my style of what I like to read.

I love the way we got to see what all of the couples were doing. Interesting to know that what they may have done in the past has come back around to these days.

Liked it, would read again

Total page turner!
