Guarding His Obsession

Synopsis

When Drake Hart's security team is hired to find a stalker, he has no idea what's in store for him. However, the day Zoey Lewis' picture lands in his lap, there's nothing he won't do to save her. He's always been quiet and shy, but seeing her changes everything. Zoey is missing a filter when it comes to interacting with people. She's used to being lost in her computer and being taken care of by her sister. She's an oddball, and people find it hard to deal with. But when Drake Hulk-smashes his way into her world, she doesn't feel so out of place. When Zoey is threatened and needs protection, will Drake save the day? With a body like his, all signs point to yes! Warning: He owns a security firm. She's a little nerdy. It's a classic trope and a recipe for sugary-sweet erotica!

How did this get so many stars. It goes from dry humping to moving in to his place to marriage proposal to "I love you" all in one day! I stopped reading it after that b/c it was just beyond ridiculous.....wish i could get my .99 back and the 20mins it took me to read thatâ |

SPOILERS ahead-----Like seriously after the first chapter you will realize something is not right

with the h and it's more than the blunt attitude. She sounded stupid if I have to be honest. She is told she has a stalker and she doesn't believe it. She goes home where she finds the H inside and doesn't even act surprised then proceeds to touch him, he kisses her and she orgasms by rubbing herself on him. Now here is where things get weird with the h...Drake offers her to stay at his home because it would be better for her protection and she says "I'll go if you promise to give me more orgasms", mind you this h is a virgin. She continuously ask for more orgasms and even the H starts to think that's all she wants from him thus refusing to have sex with her. They go to the H house and she bluntly says if she will be staying in his bed since that's the whole point of protecting her; he agrees and she starts asking for sex (so not attractive and this was said in such a way that it sounded robotic as I read it). Then she starts to ramble about having to cancel her lease and have everything moved into his house >insert puzzled face< like if he offered her to stay permanently. Then!! cause there is more...she talks about marriage and said and I quote "I thought you said we're boyfriend and girlfriend. If that's not to your liking or solid enough, we can get married. That's what people do. Right?" •. Let's take a pause because at this point this book sealed the deal with cuckoo land. The h acted as if she was a 5 year old or a robot (I even said some of her lines in a robot voice lol). Let's end this all by saying this ALL HAPPENED IN ONE DAY!!! End of spoilers-----Save yourself some time and look the other way. Would not recommend.

Ummm...I am almost speechless after reading this. This is the first book I have read by this author and maybe this is her style but I have no idea how this book got so many good reviews. I understand that the heroine is quirky and doesn't have any type of filter. We have all read this type of character before. This was like a woman-child that almost seemed to be mentally impaired or maybe autistic and sheltered her whole life. She talks like a little kid. Throws herself at a strange man. Doesn't understand simple expressions and etiquettes. The hero tells her he thinks she should come stay at his place the first time they meet because her place is not secure and she starts packing ALL of her things including a CHRISTMAS WREATH because she thinks he has asked her to move in with him PERMANENTLY just because they kissed and made out a bit about 5 minutes after meeting one another. **Possible Spoilers Ahead** Then, they get to his place and within about 2-4 hours they have decided to live together, get married, exchanged "I love you's", stripped her of her "V" card, and he has run out and bought a ring for her. Huh?!?!?!?! I...don't...understand...at all! These are not intelligent adults. These are like little kids playing house in a very psyche ward way. The only thing I can say positive about this book was that some of the sex scenes were hot when the heroine could manage to stop talking and asking bizarre questions. Just baffled by this

I'm sitting here scratching my head. This was a very odd book. I do a lot of reading and I'm sorry to say this was not my kind of book. I can almost overlook grammar and such if the story line is good, but when the storyline doesn't work for me, I can't get past that one. The story goes something like thisâ¦ They meet, they fall in love, have sex, move in together and become engaged all in one day. Not to mention, I just didn't get her personality? I know the author wanted her to be a little different, maybe even funny, but it just did not work for me.

OMG - how did this book get 5 stars?? This ranks right up there as one of the worst books I have ever read, Didn't finish it. Didn't want to. Please do not waste your time on it.

I finished this book but had to skip a great deal of it. I always hear the term Insta-Love used and I totally get it in this book. It literally took one very short day for the hero and heroine to decide they would have sex, move in together, and get married. Really??? They also overplayed the if you are very smart, you are also socially awkward stereo type. The entire book revolved around the Insta Love couple "coupling" and the mystery was resolved in one paragraph at the end of the book. This was really horrible, I don't mind a little steam in a novel but I love to read and would love some actual plot development. I guess anyone can write a book now a days. This was truly a waste of time. Terrible characters. I'd skip this and any other book from the author if this is all she has to offer.

Real easy read. Zoey is a a nerdy programmer that is in need of some protection due to a stalker coming after her. Drake is approached by Zoey's sister Elle to lend his assistance and after seeing a picture of his future client he has an urgent need to protect Zoey. The things that fly out of Zoey's mouth is actually quite amusing, made me go - did she really just say that? With Zoey's boldness it gets the hulky tough Drake to break down his walls and find joy in love. The story is campy in areas but I liked it, Zoey and Drake are very likable and I liked their chemistry.
