Customer Reviews

The short blurb about what the book was going to be about sounded great. It showed to be 510 pages. Not sure how that numbering system works but I read the whole thing in under an hour. Hero got his power too quick and there was practically nothing else to it

The Mage with the Dragon Magic is the start of exciting short stories about Taro, a special human Mage, who has acquired the magic of dragons. It is a simple, yet interesting tale of two types of magic contained in one person. Taro seems like an outcast in both worlds, but takes his transformation in stride. The story and concept is very attractive for a fantasy piece, but it does leave me wanting more. There is little background that really develops the characters, but there is a lot of potential to watch the characters grow as well as watch the races either come together or destroy each other. The quality of the story is worth 5 stars, but I am giving it 4 stars more because

it could have been longer with more content. If you want a quick read that gets you excited for more by this author, then this is the series to read.

This book is basically an introduction to a world. A world where men and dragons once lived together peacefully, but now are estranged. A young human mage obtains dragon magic powers and must face challenges from the other dragons. This fantasy world is interesting and could form the basis for a good series. I hope the author has more coming.

Very simple story, though it was readable it read like an overview of an entire situation, child has problems, child runs into trouble, child learns new power, child overcomes problem, child runs into new problem, child overcomes new problem, the end. For me, it wasn't worth reading when there are other books with better characters and plot out there.

Unbelievable the I spent money for a chapter that's it. It wasn't even a good chapter. Why in the world was this book a recommendation.

I loved the female dragon and male human relationship going. Please don't make it human to human one because it just boring and not good. Have it so female dragon sacrifices her human form/side to give that wizard (I think his name was Taro) the ability to permanently turn into half human and half dragon meaning human shape and body but dragon everything else even outward appearance. This book was too short but really well done. It was sad during a few parts of the book but not saying what as it would spoil it. Make some great evil come up and well some romance between female dragon and male human but no mating. They can comfort each other, sleep together, kiss or anything else. It just books seem to get too involved with mating and ruins the story and adventure. There are some books that can do it unless you could I don't think it be a good idea unless you only have it for a chapter but very later in the series. I am hoping you receive my feedback and reply if you can. I hope you write book 2 and make it a few hundred pages please and more than one book.

The story slams through with just a generic background and the briefest of character introduction. The plot has potential, but without more building of the characters and the world it is just a shadow of what it could be.

This is a quick read, but the rapid pace is its greatest weakness. The world and the people of the story have the potential to be interesting if given a bit more time and attention. It was good but too short to be great.
