Publisher: QuickStudy; Lam Chrt edition (December 31, 2010)

Language: English

ISBN-10: 1423215001

ISBN-13: 978-1423215004

Product Dimensions: 8.5 x 11 x 0.1 inches

Shipping Weight: 1.6 ounces (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 starsÂ Â See all reviewsÂ (29 customer reviews)

Best Sellers Rank: #63,580 in Books (See Top 100 in Books) #5 inÂ Books > Medical Books > Basic Sciences > Histology

Customer Reviews

These charts are well made and have very good illustrations and I’m glad that I have this one.The endocrine system is so important, producing all those hormones and all that they do.A very good learning tool and knowing it’s parts leads me to do some research of my own.Helps me too for when I’m speaking with the Dr. to have a better understanding of what he is talking about.

To me itâ ™s especially a delightful way in which we on the front side both are seeing the 10 objects on their actual position in the body, and besides in bigger drawings next to the body, so that we better can recognize them when we go to the 5 following sides.

I have books of charts, but I like to have each system in one chart. I can scan these & send them to someone & tell them to concentrate on massaging a certain area or areas for their problem. As an LMT, I give advice to many family members & friends.

I am taking a Clinical Foundations course and these quick study guides are a must have. They are

accurate, detailed, and (with the pre-punched holes) fit nicely in a binder. The lamination ensures that they will last a long time. I am quite pleased.

this item is as i expected it to be. it is a good study guide for the beginning anatomy student

This is great when you need a quick reference to refresh what you are learning in class and not have to look through the book for the information. Love these guides

Love that it is laminated, and very detailed. Great study guide. Using in my college courses. would advise to purchase these, lasts for along time.

Excellent study guide. Clear and concise, easy to read. I showed to another student and she asked me to order some for her too.
